Benzlers performs a free repair inspection on most of Benzlers' range and also other makes that are returned to us. The transportation to Benzlers and return transportation, if any, are not included in our offer. We are not responsible for any damages during the transportation. At a possible return of an analysed unit we reserve the right to return it in existing condition (i.e. in parts). If nothing else is agreed to, we discard the sent in unit after 6 months from date of arrival. We take no responsibility for damaged/destroyed units due to circumstances beyond our control (fire, flood, theft, power failure etc.).

I approve of above conditions
